FIG. 5**FIG. 7**

The diagram illustrates a medical device, possibly a catheter or probe, with a cross-sectional view of its internal components. The device consists of a central shaft (15) and a surrounding housing (2). The shaft is connected to a control unit (17) via a cable (41). The control unit includes a power source (32) and a control circuit (33). The device is also connected to a patient (Y) via a catheter (4). The diagram is labeled with various numbers: 15, 41, 4, 32, 2, 33, 34, 5, 17, and Y.
