(54) Title: DISPOSABLE PREMOISTENED WIPE CONTAINING AN ANTIMICROBIAL PROTEASE INHIBITOR

(57) Abstract

A disposable wipe which comprises a substrate, an antimicrobial protease inhibitor, and a liquid. The antimicrobial protease inhibitor may be added directly to the substrate and/or added directly to the liquid. The antimicrobial protease inhibitor is capable of inhibiting deleterious fecal microorganisms and protease enzymes thereby aiding in the prevention of diaper dermatitis. The wipe may optionally include other ingredients examples of which include humectants, emollients, surfactants, fragrances, emulsifiers, and preservatives. Also disclosed is a skin care regimen using the disposable wipe of the current invention in conjunction with a disposable absorbent article. For wearers of disposable absorbent articles, skin health in the area of the skin contacted by the disposable absorbent article is prophetically maintained and/or improved by utilizing the disposable wipe of the present invention in conjunction with the disposable absorbent article.
