

ABSTRACT

UPLINK TRANSMISSION METHOD, RECEIVING METHOD, AND APPARATUS, DEVICE, AND STORAGE MEDIUM

This application provides an uplink transmission method and apparatus, an uplink receiving method and apparatus, a device, and a storage medium. The method includes: in a case that an uplink control channel conflicts with an uplink data channel, performing multiplexing transmission for uplink control information and uplink transmission, where a transmission resource of the uplink transmission and a transmission resource of the uplink control channel overlap, and the uplink transmission meets a preset condition.
