ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: A METHOD FOR BRAZING METAL COMPONENTS

(57) Abstract: The invention relates to nickel-gold-phosphorus brazed components, such as high quality nickel-based superalloy sheet components (stator vanes for use in jet engines). The invention also relates to a ternary brazing alloy consisting of nickel-gold-phosphorus, and a method of using this ternary brazing alloy for joining metal components together.
