(54) Title: USING WOLFFIA GENUS PLANT MATERIAL FOR PREPARING DOUGH

Fig. 1B

(57) Abstract: The present invention discloses a malleable mass of dough comprising: (a) dry material; said dry material comprises flour; and, (b) a liquid component; said liquid component comprising liquid essentially originating from fresh whole Wolffia genus plant added to said dry material during the kneading process; said liquid component extractable from said fresh whole plant during the plant disruptive dough kneading process. The present invention further discloses methods for preparing the aforementioned malleable mass of dough.
