(54) Title: RECORDING/REPRODUCING METHOD, RECORDING/REPRODUCING APPARATUS AND INFORMATION STORAGE MEDIUM

(57) Abstract: A recording and/or reproducing method, a recording and/or reproducing apparatus, and an information storage medium are provided. The method of recording data to an information storage medium includes: according to a change in a method of using the information storage medium, rearranging the order of a first information structure with a variable size and a second information structure with a fixed size, both of which are included in management information of the information storage medium, so that the first information structure with the variable size can be positioned following the second information structure with the fixed size; and recording the rearranged management information on the information storage medium. According to the method and apparatus, recording management information can be found in a fixed location of a finalized information storage medium, thereby allowing the recording management information to be found easily and quickly.
