HYDROPHILIC ELASTICALLY STRETCHABLE COMPOSITE SHEET

5 A hydrophilic elastically stretchable composite sheet
composed of an elastically stretchable first sheet 3 and an
inelastically stretchable second sheet 2 intermittently bonded
to at least one surface of the first sheet 3. At least one of
the first sheet 3 and the second sheet 2 contains hydrophilic
10 material. The composite sheet has a high sweat absorbability.

Refer to Fig. 1.
