

Figure 1

Figure 3

A cross-sectional view of a vehicle seat cushion assembly. The diagram shows a multi-layered structure. At the top, a curved surface (51) is shown. Below it, a layer (57) is visible. The main body of the cushion is composed of several layers: a top layer (45), a middle layer (16), and a bottom layer (12). The sides of the cushion are reinforced with a material (55). The bottom of the cushion features a complex internal structure (40) with components labeled 40a and 40b. Other labels include 42, 46, 33, 19, and 41, indicating various parts and layers of the assembly.
