

ABSTRACT

An ethylene-vinyl alcohol copolymer composition
contains: (A) an ethylene-vinyl alcohol copolymer; (B) a
5 compound containing a conjugated polyene structure; and (C)
an iron compound; wherein the iron compound (C) is present in
an amount of 0.01 to 20 ppm on a metal basis based on the weight
of the ethylene-vinyl alcohol copolymer composition. The
ethylene-vinyl alcohol copolymer composition is less
10 susceptible to coloration and is excellent in heat stability.
