(54) Title: LOCK WITH REMOVABLE CORE

167167

**(57) Abstract**

G00002

A removable core cylinder lock, comprising a casing (10) with a cavity (11), a lock core (20) insertable into said cavity, a cylindrical, rotatable key plug (60) located in a bore in said core, and a retainer member, which is transversely movable in the lock core (20) between a first, locking position and a second, releasing position. The casing has an inwardly protruding locking projection (12) which engages with an axially limited recess (50) in the retainer member when the latter is located in the first, locking position.
