(54) Title: AN ARRANGEMENT FOR CONNECTING AN ELECTRICAL SYSTEM TO ELECTRONIC UNITS

Fig 2

(57) Abstract: An arrangement for connecting an electrical system to electronic units of a system for control of electrical devices have a plate (1) having on a first side thereof first side connectors for receiving connectors of the electrical system. An opposite second side of the plate being formed by a printed circuit board (6) is arranged and to which the first side connectors connect. This second side (5) of the plate (1) is provided with second side connectors (7) designed for connection of members controlling the electronic units thereto.
