

**ABSTRACT****AN EFFECT CONTROL METHOD, AN EFFECT CONTROL DEVICE AND A KARAOKE
SYSTEM USING SUCH METHOD AND DEVICE**

An effect control method, an effect control device and a
karaoke system using such method and device are provided in/as one
5 of audio regenerator/synthesizer systems. A commander 200
comprises a reading part 100 which reads music information comprised
of sound information, visual information, and the effect control
data from CD-ROM 207; a built-in hard disk 101 for storing the music
information from a host database 213; an image regenerating part
10 102 which regenerates images from the visual information; a sound
regenerating part 103 which regenerates sounds of the karaoke music
from the sound information; an effect setting switch 104 for setting
microphone effect control data; an effector 105 for applying the
effects to the sound information and voice input from a microphone
15 based on the effect control data; and a controlling line 106 for
transmitting the microphone effect control data from the reading
part 100 to the effector 105.
