(54) Title: AN ENTERTAINMENT GAMING MACHINE

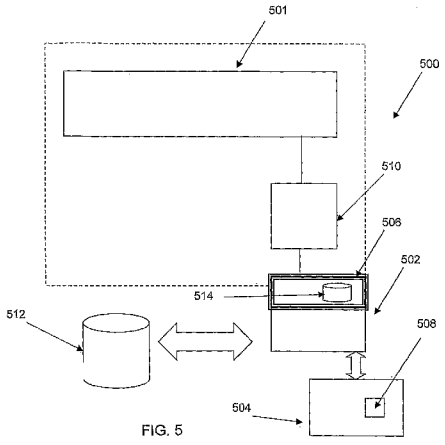

FIG. 5

(57) Abstract: An entertainment gaming machine and a method for managing operation of an entertainment gaming machine. The entertainment gaming machine comprises a card reader module coupled to the gaming machine and configured for performing read and write functions from and to a data storage medium of a card coupled to the card reader module; and an exchange module coupled to the card reader module for converting amounts between different categories stored in the data storage medium of the card based on player input and according to respective exchange rates.
