

ABSTRACT OF THE DISCLOSURE

5 A selective call receiver (1) for providing at least two
menus on a visual display (3), each of the menus
providing for displaying one or more icons (7,8,9) for
invoking respective functions of the selective call
receiver (1). At least one of the icons (7,8,9) can be
10 moved from one of the menus to another of the menus by
suitable operation of buttons (11,12,15,16) mounted to a
casing (2) of the selective call receiver (1).

FIG. 1 accompanies this abstract.
