(54) Title: SENSOR SIGNAL CONVERTOR

(57) Abstract: A way of converting sensed signals to a desirable form of electrical signals is provided that includes providing an input signal to a common input terminal of a sensing block. The way comprises receiving a sensed signal from the sensing block in response to applying the input signal.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
