(54) Title: VIDEO PROCESSING METHOD AND APPARATUS, AND DEVICE AND STORAGE MEDIUM

(54) 发明名称: 一种视频处理方法、装置、设备及存储介质

图 1

- S101 Display a preset video switching control on a video playback page for a target video
- S102 On the basis of a trigger operation for the preset video switching control, determine a target switching video from a first video set
- S103 Replace the target video in a first video information flow with the target switching video, so as to obtain a video information flow which has been subjected to replacement and which corresponds to the first video information flow
- S104 On the basis of the video information flow which has been subjected to replacement, play the target switching video on the video playback page

(57) Abstract: Provided in the present disclosure are a video processing method and apparatus, and a device and a storage medium. The video processing method comprises: firstly, displaying a preset video switching control on a video playback page for a target video, wherein the target video belongs to a first video set and a first video information flow; on the basis of a trigger operation for the preset video switching control, determining a target switching video from the first video set; then, replacing the target video in the first video information flow with the target switching video, so as to obtain a video information flow which has been subjected to replacement and

which corresponds to the first video information flow; and then, on the basis of the video information flow which has been subjected to replacement, playing the target switching video on the video playback page.

(57) 摘要: 本公开提供了一种视频处理方法、装置、设备及存储介质。视频处理方法包括: 首先, 在针对目标视频的视频播放页面上, 显示预设视频切换控件, 目标视频属于第一视频合集和第一视频信息流; 基于针对该预设视频切换控件的触发操作, 从第一视频合集中确定目标切换视频, 然后, 利用目标切换视频替换第一视频信息流中的目标视频, 得到第一视频信息流对应的替换后视频信息流; 进而, 基于该替换后视频信息流, 在视频播放页面上播放目标切换视频。
