(54) Title: A SOLAR POWER PLANT AND METHOD OF INSTALLING A SOLAR POWER PLANT

FIG. 4

(57) Abstract: A solar power plant comprising a pliable mat having a photovoltaic (PV) module fixed thereon by means of an attachment assembly which comprises at least one elongate module profile secured to an edge of the PV module, and a corresponding elongate mat profile attached to the mat, and the profiles are configured such that the PV module is secured to the mat by bringing the module profile into contact with the corresponding mat profile. There is also provided a method of installing a floating photovoltaic power plant.
