(54) Title: ALKYLQUINOLINE AND ALKYLQUINAZOLINE KINASE MODULATORS

a. Effects of orally administered Compound 73 on the growth of MV4-11 tumor xenografts in nude mice.

b Effects of orally administered Compound 74 on the growth of MV4-11 tumor xenografts in nude mice.

(57) Abstract: The invention is directed to alkylquinoline and alkylquinazoline compounds of Formula I: wherein R1, R2, R3, B, Z, G, Q and X are as defined herein, the use of such compounds as protein tyrosine kinase modulators, particularly inhibitors of FLT3 and/or c kit and/or TrkB, the use of such compounds to reduce or inhibit kinase activity of FLT3 and/or c kit and/or TrkB in a cell or a subject, and the use of such compounds for preventing or treating in a subject a cell proliferative disorder and/or disorders related to FLT3 and/or c kit and/or TrkB . The present invention is further directed to pharmaceutical compositions comprising the compounds of the present invention and to methods for treating conditions such as cancers and other cell proliferative disorders.
