FIG. 6F

The screenshot displays the 'ProQA for Medical' application window. The title bar includes 'File', 'View', 'Spec Logs', 'Options', 'Tabs', 'Additional Information', 'Version', and 'About ProQA'. The main interface is divided into several sections:

- Top Bar:** Contains a 'hold' button, a status field showing 'n/a', and a title field '36: Pandemic Flu (Officially Announced)'.
- Navigation Tabs:** 'Entry', 'RQ', 'PD/CEI', 'DLS', and 'Summary'.
- Main Content Area:**
 - Left Panel (310):** A list of instructions labeled a through e.
 - a. (If regular dispatch) I'm sending the paramedics (ambulance) to help you now. Stay on the line and I'll tell you exactly what to do next.
 - b. (If reduced/limited dispatch) I'm arranging care for you now. An ambulance (or Care Van) will come to check you when they are available. This might take (several hours).
 - c. (If quarantine and no dispatch) Because of the extent of the flu epidemic, and ambulance cannot be sent to you. I will connect you to a flu care specialist who will advise you on what to do.
 - d. (Patient medication requested and Alert) Remind him to do what his doctor has instructed for these situations.
 - e. (=> 1 + DELTA) If there is a defibrillator (AED) available, send someone to get it now in case we need it later.
 - Right Panel (310a, 310c, 310b):** A vertical stack of buttons labeled a through h, with a 'D' button at the bottom.
 - DLS Links (702):** A section containing 'X-Card' and 'INEFF BR & Not alert'.
- Bottom Section (704):** A table with patient information.

SUPERVISOR	O: NAE	21 year old, Male, Conscious, Breathing. INEFFECTIVE BREATHING with flu systems.
