ABSTRACT

The present invention relates to an onium salt, a liquid
composition comprising the onium salt and polysaccharides, and a
polysaccharide recovery method. According to the present invention,
10 it is possible to provide an onium salt with very high
polysaccharide solubility at 10 to 50°C, particularly at a
temperature around room temperature (25°C). It is also possible to
provide a liquid composition comprising the onium salt and
polysaccharides as a composition suitable for recovering
15 polysaccharides, and a method for recovering polysaccharides
efficiently using such a liquid composition comprising the onium
salt and polysaccharides.
