(54) Title: A LOCKING ASSEMBLY THAT LOCKS A CARGO NET TO A PALLET

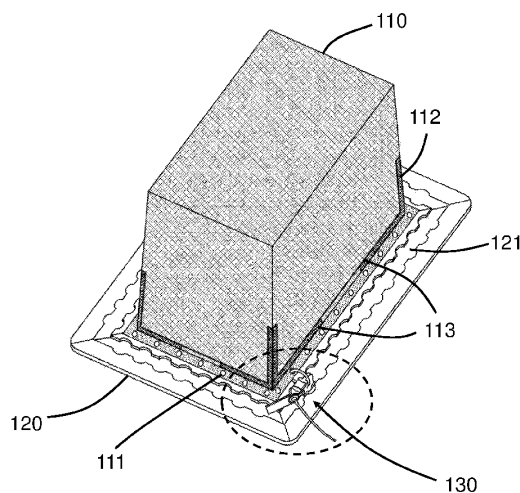

Fig. 1a

(57) Abstract: A method and a locking assembly (130) for lock-
ing a cargo net (110) to a pallet (120) for preventing access to car-
go during transportation is disclosed. A locking assembly com-
prises an anchor (133), a retaining ring (131) and a cable tie
(132). The anchor (133) includes a base member (141), a bolt
(151), and a spring (161). The retaining ring (131) locks to both
the cargo net (110) and the base member (141). The cable tie
(132) locks the bolt (151) and the base member (141) together
and prevents the bolt (151) from moving from the base mem-
ber (141). Such that the anchor (133) is prevented from being re-
moved from the pallet (120) without destroying the anchor (133)
or the pallet (120).
