

METHOD FOR TREATING CANCER USING ARTIFICIAL ADJUVANT CELL
(aAVC)

[Abstract]

[Problem to be Solved]

5 Provided is an effective and safe method for
treating or preventing a cancer using aAVC.

[Solution]

 The present invention finds suitable ranges of the
dose of α -GalCer loaded on aAVC cell surface, and the
10 amount of α -GalCer loaded on aAVC cell surface in a
pharmaceutical composition comprising aAVC, which are
preferred in terms of securing effectiveness and safety
in the treatment and prevention of a cancer using aAVC,
and provides an effective and safe method for treating or
15 preventing a cancer using aAVC, aAVC for effective and
safe treatment or prevention of a cancer, and a
pharmaceutical composition comprising the same, etc.
