

[図1]

(a)

A cross-sectional view of a multi-layered structure. The structure consists of a base layer 2 and a top layer 5. The top layer 5 has three openings: a large central opening 31 (P1) with a width X2, a smaller central opening 53 (P2) with a width X6, and a side opening 41 (P3). The side opening 41 (P3) is located between the large central opening 31 (P1) and a side opening 42 (P4). The side opening 42 (P4) has a width X4. The top layer 5 is formed by a material 4, and the base layer 2 is formed by a material 3. The side opening 41 (P3) is formed by a material 51. The side opening 42 (P4) is formed by a material 43. The side opening 41 (P3) is located between the large central opening 31 (P1) and the side opening 42 (P4). The side opening 41 (P3) is formed by a material 51. The side opening 42 (P4) is formed by a material 43.
