3/9/2016 3:25:09 PM	6011	High	Pass

Have all controls finished analysis and are you ready to start troubleshooting process?

No, Still Processing Controls

Yes, Start troubleshooting

If you do not wish to troubleshoot, please skip this step

Ready for samples

Time Remaining to run QC 25 hours 16 mins
Notes: No issues detected

Resolve

Fig. 10

The screenshot shows a web form with a title bar 'XN-10 - 14364 - Resolve QC Issue'. The form contains two main sections: 'Issue Identified:' with the text 'A QC issue has been identified with this analyzer', and 'Recommended Action:' with the text 'Please perform "Remove RBC detector clog" in maintenance section of analyzer IPU.'. Below the recommended action is a 'Complete' button. At the bottom, there is a link: 'If you do not wish to troubleshoot, please skip this step'.
