(54) Title: AN ADAPTOR FOR MOUNTING ONTO A MEDICAL CONTAINER, A MEDICAL CONTAINER COMPRISING SAID ADAPTOR, AND A METHOD FOR MANUFACTURING SAID ADAPTOR

Fig. 1

(57) Abstract: This adaptor (1) comprises a distal part (2) configured to receive a connector, and a proximal part (4) configured to be mounted onto the distal tip (102) of the medical container (100). The proximal part (4) comprises an inner ring (40) protruding from a lateral tubular wall (6) of the adaptor (1), said inner ring (40) having an inner edge (42) that delimits an opening configured to receive the distal tip (102). The proximal part (4) further comprises a gripping member (50) made of an elastomer material, said gripping member (50) being connected to the inner edge (42) of the inner ring (40) in order to be in contact with an outer surface of the distal tip (102) when the adaptor (1) is mounted onto the medical container (100).
