(54) Title: CONTACT LENS PACKAGING AND METHODS OF MANUFACTURING PACKAGED CONTACT LENSES

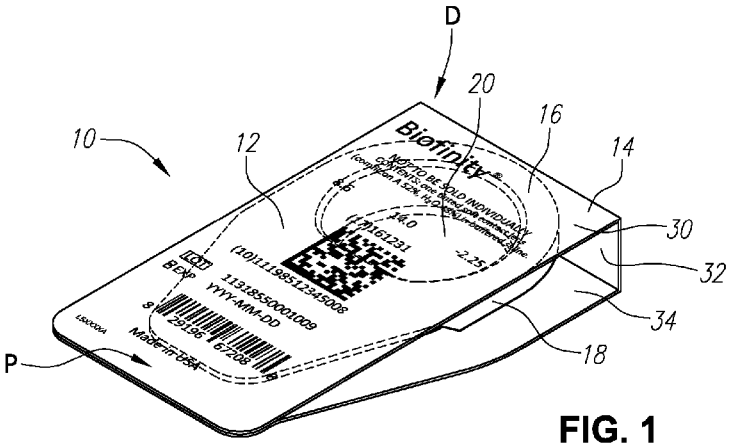

FIG. 1

(57) Abstract: A contact lens package includes a sealed contact lens package and a wrap coupled to the sealed contact lens package. The wrap has one or more panels. One of more of the panels includes a printed surface that includes a unique device identifier, which is provided in both human readable form that includes numbers or letters, or both, and machine readable form, such as a bar code. A method of manufacturing a contact lens package includes providing the sealed contact lens package and coupling the wrap to the sealed contact lens package.
