For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

(54) Title: SYSTEM AND METHOD FOR PRODUCING WEB-BASED PROCESS ADVISOR APPLICATIONS

(57) Abstract: A system (10) for producing a process advisor application uses a process mapping program (26), a compiler (28) and a program such as a Java servlet (30) to produce a process advisor application. The process mapping program (26) is used to create a decision tree, and the compiler (28) compiles the decision tree into a data file. The data file is then converted into one or more computer viewable documents, such as web pages.
