

ABSTRACT

FACTOR VIII POLYPEPTIDE FORMULATIONS

The present invention provides a formulation of a Factor VIII polypeptide, e.g., FVIII-Fc, and methods of using the same. The FVIII polypeptide can be a recombinant FVIII protein, a short-acting FVIII protein, or a long-acting FVIII protein. The pharmaceutical formulation comprising a FVIII polypeptide can be used for individual prophylaxis, weekly prophylaxis, episodic (on-demand) treatment, or perioperative management of hemophilia.
