41. The antibody or the bispecific molecule of claim 35, wherein the use is for the treatment of prostate cancer.

42. The antibody or the bispecific molecule of claim 35, wherein the use is for the treatment of bladder cancer.

43. The antibody or the bispecific molecule of claim 35, wherein the medicament is for the treatment of cancer in combination with one or more further therapeutic agent, such as a chemotherapeutic agent.

44. Use of the antibody of any one of the claims 1-30 or the bispecific molecule of claim 31 for the manufacture of a medicament for treatment of cancer.

45. A method for producing an antibody of any of claims 1 to 30 said method comprising the steps of
a) culturing a host cell of claim 32, and
b) purifying the antibody from the culture media.

46. A diagnostic composition comprising an antibody as defined in any of claims 1 to 31.

47. A method for detecting the presence of Tissue Factor in a sample, comprising:
- contacting the sample with an antibody of any of claims 1 to 30 or a bispecific molecule of claim 31 under conditions that allow for formation of a complex between the antibody or bispecific molecules and Tissue Factor; and
- analyzing whether a complex has been formed.

48. A kit comprising
- an antibody of any of claims 1 to 30 or a bispecific molecule of claim 31 for use in detecting the presence of Tissue Factor in a sample; and
- instructions for use of the kit.
