

Abstract

Therapeutics Using Adipose Cells And Cell Secretions

- 5 The invention relates to compositions comprising (i) adipose tissue-derived cell secretions or (ii) an adipose tissue-derived cell suspension, optionally comprising adipocytes, or (iii) a combination of adipose tissue-derived cell secretions and an adipose tissue-derived cell suspension, optionally comprising adipocytes, and to their use in pharmaceutical compositions and methods for treatment of various
- 10 conditions. The invention also relates to improved methods, agents and compositions for cryopreservation of cells.
