(54) Title: DISPENSER WITH DOSES' COUNTER

(57) Abstract

There is provided a dispenser suitable for dispensing medicament, particularly medicament for use in the treatment of respiratory disorders. The dispenser comprises a housing (1) having a support (5); a container (2), locatable within said housing (1), having an outlet member, wherein said container (2) is movable relative to the housing (1) to enable dispensing therefrom and said outlet member is connectable with said support (5) to prevent relative movement therebetween; and a dose indicator (13, 43), locatable within said housing (1). The container (2) and dose indicator (1 3, 43) are reversably removable from the housing (1) as a single unit.
