

ABSTRACT

CONTROL SYSTEM AND OPERATION PLANNING METHOD

5 A control system includes an area function setting unit that sets an area usage
method at a predetermined time for each of a plurality of areas in a pit where materials to be
incinerated are deposited, an operation setting unit that sets an operation mode for each of a
plurality of cranes, and a control unit that controls each of the plurality of cranes based on a
combination of the area usage method set by the area function setting unit and the operation
10 mode set by the operation setting unit.
