

ABSTRACT

METHOD FOR TREATING AMMONIACAL NITROGEN-CONTAINING WASTEWATER AND AMMONIACAL NITROGEN DECOMPOSER

5

Provided is a method for treating ammoniacal nitrogen-containing wastewater, which allows ammoniacal nitrogen-containing wastewater to be treated with a simple method. The method for treating ammoniacal nitrogen-containing wastewater provides for, in ammoniacal nitrogen-containing wastewater that contains ammoniacal nitrogen, the
10 presence of the following: a bromine-based oxidizing agent (or the reactants of a bromine compound and chlorine-based oxidizing agent) and a sulfamic acid compound; or a mixture (or a reaction product) of a bromine-based oxidizing agent (or the reactants of a bromine compound and a chlorine-based oxidizing agent) and a sulfamic acid compound; or a mixture of bromine and a sulfamic acid compound, or a reaction product of bromine
15 and a sulfamic acid compound.
