(54) **Title:** HYDROGEL MASK PACK, METHOD OF PREPARING THE SAME, AND RELATED COMPOSITION

(57) **Abstract:** In a hydrogel mask pack having good skin-care effects, the hydrogel mask pack is formed by filling a frame with a composition for the hydrogel mask pack and immersing the frame in any one of an aqueous solution of a metal salt, alcohol or distilled water. The composition for the hydrogel mask pack is prepared by mixing an aqueous solution of fibroin and any one of alginate, cellulose or agar. The hydrogel mask pack may have superior moisturizing effects, skin-regenerative effects, mechanical strength and elasticity, and thus may be good enough to be used for a skin-care mask pack.
