

24. A cartridge according to any one of Claims 1 - 23, wherein an angle formed between the rotational axis of said coupling member taking the at-mounting attitude and the rotational axis of said coupling member taking the reference position is a value in the range of approx. 20° to approx. 60°.

5

25. A cartridge according to any one of Claims 1 - 6, wherein said urging portion is capable of directly urging said coupling member.

26. A cartridge according to Claim 4, further comprising an urging
10 elastic member.

27. A cartridge according to Claim 26, wherein said urging portion is provided at a part of said urging elastic member.

15 28. A cartridge according to Claim 26 or 27, wherein said urging elastic member includes a spring.

29. A cartridge according to Claim 28, wherein said spring is a
torsion spring.

20

30. A cartridge according to Claim 28, wherein said spring is a coil spring.

31. A cartridge according to any one of Claims 1 - 6, wherein said
25 movable portion is capable of taking a movement reference position for placing said coupling member in the reference position.
