8. The use of claim 1, wherein the medicament further comprises from about 0.001% to about 1% by weight of a preservative.

9. The use of claim 1, wherein the medicament further comprises from about 0.01% to about 0.5% by weight of a preservative.

10. The use of claim 1, wherein the medicament further comprises from about 0.001% to about 0.01% by weight of a preservative.

11. The use of claim 1, wherein the medicament further comprises from about 0.01% to about 2 % by weight of a co-solvent.

12. The use of claim 1, wherein the medicament further comprises from about 0.01% to about 2% by weight of a viscosity building agent.

13. Use of a pharmaceutical composition comprising (*S*) (3-(1-(1H-imidazol-4-yl)ethyl)-2-methylphenyl)methanol or a salt thereof, in the manufacture of a medicament for lowering intraocular pressure of a patient, wherein the medicament is to be topically administered to the affected eye of said patient, once or twice daily, and wherein the affected eye maintains an intraocular pressure less than the baseline intraocular pressure, throughout the day.

14. The use according to claim 3 wherein said medicament is to be administered once a day.

~~15. An article of manufacture comprising packaging material and a pharmaceutical agent contained within said packaging material, wherein the pharmaceutical agent is therapeutically effective for lowering intraocular pressure and wherein the packaging material comprises a label which indicates the pharmaceutical agent can be used for lowering intraocular pressure and wherein said pharmaceutical agent comprises an effective amount of (*S*) (3-(1-(1H-imidazol-4-yl)ethyl)-2-methylphenyl)methanol.~~
