

ABSTRACT

Provided are an unread-message reminding method and apparatus, a terminal device and a storage medium. The method includes displaying, in response to receiving an activation instruction of a session interface and in a case where an unread message is present on the session interface, an unread-message reminder icon on the session interface; skipping, in response to receiving a trigger instruction of the unread-message reminder icon, to a corresponding unread message for a user to read; and updating, in real time and according to a session message received by the session interface in real time and an unread-message reading state, the unread-message reminder icon displayed on the session interface.
