

**TRAY SYSTEM FOR TRANSFER, COUNTING, STORAGE AND DISPOSAL OF
SURGICAL INSTRUMENTS**

ABSTRACT

5

The present invention provides a transfer tray for transferring one or more surgical instruments securely. The present invention further provides a counting tray for the collection and securing of used surgical instruments. Additionally, the present invention provides a surgical instrument disposal container comprising a transfer tray
10 coupled to a counting tray such that used surgical instruments are enclosed within the counting tray by the transfer tray.
