

A NET CAGE, MARINE FARMING SYSTEM AND METHOD OF USE THEREOF

ABSTRACT

A net cage (3) for a marine farming system (1) comprising:

at least a first foldable float assembly (11);

a foldable net assembly (17) including a net (19), the net assembly (17) being supported by the first float assembly (11) when deployed within a marine environment, the net assembly (17) when deployed providing an enclosure space therein;

wherein the net cage (3) has a compact folded configuration and an expanded deployed configuration.
