

TITLE OF THE INVENTION: HONEY POWDER AND METHOD OF PREPARATION

ABSTRACT

Described herein is a honey powder comprising 30% to 75% by weight of honey and
5 25% to 70% by weight of a sugar polymer or a honey powder comprising honey and
a sugar polymer, the honey to the sugar polymer ratio is 75-85 to 30-120. The sugar
polymer has a glycaemic index of 50 or less and a glass transition temperature of at
least 80 °C. The honey powder may be prepared by providing a mixture comprising a
10 liquid honey, the sugar polymer, and the protein if present; stirring the mixture to obtain
a solution; and spray drying the solution.
