

A B S T R A C T

A smoking article includes an aerosol-generating section (11) and a filter section (12) attached to the aerosol-generating section (11). The filter section
5 (12) contains a plurality of flavor-releasing particles (123) each containing a water-soluble matrix containing a flavor component. The plurality of flavor-releasing particles (123) has respective particle diameters ranging from 1 to 100 μm and has an average particle
10 diameter of 20 μm or less.
