(54) Title: BISPHENOL A DIGLYCIDYL ETHER-FREE COATING COMPOSITION FOR METAL SUBSTRATES

(57) Abstract: The invention relates to a substantially BADGE-free paint composition comprising a) a polyester, based on at least 80 weight % aromatic acid monomers (based on the total weight of acid monomers used for producing the polyester); b) a crosslinker being a phenolic based resin; and c) an organic solvent or water. The invention also relates to a substrate wholly or partly coated with a substantially BADGE-free coating composition according to the invention. The invention further relates to a method for further processing a substrate coated with a coating composition.
