DISPLAY DEVICE, CONTROL DEVICE, CONTROL METHOD, AND COMPUTER PROGRAM

ABSTRACT

A display device, a control device, a control method, and a computer program that can visualize a generation frequency of an alarm are provided. A display device (32) displays an operation state of a plant (1), in which for a plurality of alarms generated in the plant (1), a generation frequency of each alarm type indicating a type of the alarm in a first period is displayed in an aspect of being arranged for each alarm type. Accordingly, the generation frequency of each alarm type in the first period can be visualized.
