ABSTRACT

Embodiments of the present disclosure provide a work display method and apparatus, an electronic device, a storage medium, and a program product. The method comprises: displaying a target work in a work display page; in response to a page switching operation acting in the work display page, displaying a personal homepage of a target publisher, and displaying a position control in the personal homepage, the target publisher being a publisher of the target work, and the personal homepage being configured to display work items of works published by the target publisher; and in response to a first trigger operation acting on the position control, displaying a work item of the target work in the personal homepage, before the work item of the target work is displayed, the display of the position control being maintained in the personal homepage.
