

1 **ABSTRACT OF DISCLOSURE**

2 A container includes a base including supporting elements formed
3 thereon, a covering device for covering the base and pressing elements
4 attached to an internal side of the covering device. Each of the pressing
5 elements includes flat body, a first leg extended from an edge of the flat
6 body for pressing an upper side of a flat object and a second leg extended
7 from another edge of the flat body for pressing an edge of the flat object
8 independent of the first leg as shown in Fig. 2.
