Project manager - Multi-million dollar project - immediate start!! Apply now!

PS0002

- Generous remuneration package
- Luxurious Sydney based office
- Friendly and supportive culture

Project Manager wanted for a company of impressive size and unrivalled reputation. This organization is an outright leader in it's field, and as such on the lookout for a Project Manager with an accomplished track record of coordinating multiple IT teams, with great Vendor management skills and the ability to ensure the successful delivery of complex integrated projects.

You will be a seasoned Project Manager with impressive communication and documentation skills. With a strong background in Telecommunications, you will be able to work collaboratively with IT Managers, Business Analysts and Stakeholders to ensure the successful delivery of multi million dollar projects - in the green and ahead of time where possible.

To apply you will need the following skills;

- Very strong front-end to back-end application integration experience in Telco
- Experience working across multi million dollar complex integration projects
- Digital Media Product experience
- Product Management and implementation experience
- Financial control and billing expertise

To apply online, please click on the appropriate link below. Alternatively, for a confidential discussion, please contact Alice Johnson on 0410 512 021, quoting Ref No. PS0002.
