(54) Title: GUIDING DEVICE FOR USE WITH LARYNGOSCOPE

FIG. 7

(57) Abstract: The present invention relates to a guiding device for use with a laryngoscope for assisting in the insertion of an endotracheal tube into a patient, the device comprising a guiding means for guiding an endotracheal tube through the patient's upper airways, and an attachment means to attach the guiding means to the blade of the laryngoscope. The invention further relates to a laryngoscope comprising the guiding device.
