(54) Title: AERODYNAMIC APPARATUS FOR SERIES 1 FREIGHT CONTAINERS

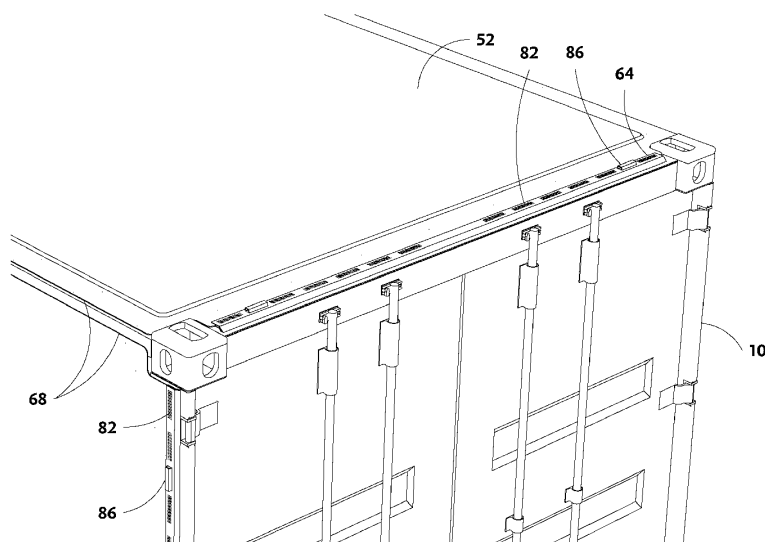

Fig. 10

(57) Abstract: A magnetic, pliable membrane (68) is applied to the sides of a prior art series 1 freight container (10) where structural steel flutes (54) are exposed. The membrane smooths out gaps formed by steel flutes (54) for improved aerodynamic performance when a semi-truck carrying a series 1 freight container (10) is in transit.
