(54) Title: METHODS AND SYSTEM FOR FILLING A SUPPRESSANT CONTAINER

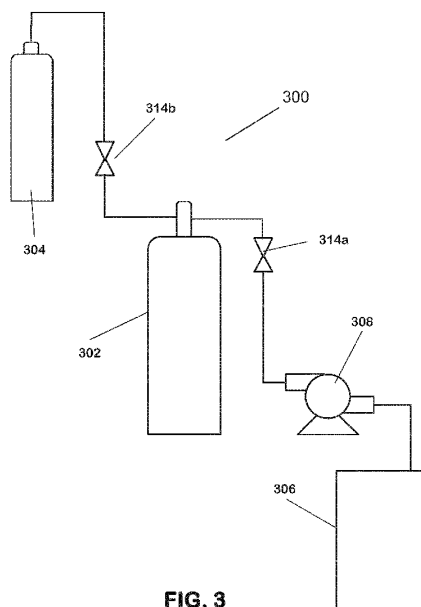

FIG. 3

(57) Abstract: Systems and methods for filling and pressurizing a container with liquid suppressant and nitrogen gas. A pressurized receiving container of nitrogen gas is provided at a predetermined gas pressure and liquid suppressant is added to the pressurized receiving container. The predetermined gas pressure provides a sufficient amount of nitrogen to saturate the added liquid suppressant and provide an operative head space pressure within the receiving container without the need for mechanized mixing.
