

ABSORBENT ARTICLE

ABSTRACT

5 The purpose of the present invention is to provide
an absorbent article that can impart a feeling of
security to the wearer regarding the performance of the
absorbent article when replacing the absorbent article
and verifying the menstrual blood that has been absorbed
10 by the absorbent article. The present invention
comprises: a liquid-permeable top sheet (2) that is
arranged on the skin side; a liquid-impermeable back
sheet (3) that is arranged on the clothing side; a
liquid-retaining absorbent body (4) that is arranged
15 between the top sheet (2) and the back sheet (3); a first
sheet (5) that is arranged between the top sheet (2) and
the absorbent body (4) and within the area in which the
absorbent body (4) is arranged; and a second sheet (6)
that is arranged between the first sheet (5) and the
20 absorbent body (4). The first sheet (5) is liquid
permeable and has liquid-retaining properties. The
second sheet (6) is liquid permeable but does not have
liquid-retaining properties and hides the red color of
menstrual blood absorbed by the absorbent body (4).
